

We show various fireplaces which we have lit in recent times. Our thanks to the numerous happy customers who have sent us their photos, for us to share.

The "before" and "after" effect of various styles of fireplace.

Warm White 3000K is still the most popular colour requested for back lighting fireplaces. Introduced in January 2024 we now have a Heat Resistant multi-colour (RGBW) strip for those who like vibrancy. You can still have the Warm 3000K appearance, or any other colour you fancy as well. Below are just a few examples.

Let there be light,
and there was light.

Warm White 3000K
What a difference.

Fireplace before light.
Dark and uninteresting.

Fireplace in Pink

Fireplace in Red

Fireplace in Blue

Fireplace in Green
